Spread Stream CFD

This correspondence serves as a formal notification that, prior to the activation of a new trading stream, a spread charge is to be applied to your account. In reference to your trading ID TTW-MJ00786, and following the successful execution of the previous stream valued at TTD 450,000, the applicable spread charge has been determined as USD 2,205.54 (equivalent to TTD 15,000.00). Settlement of this charge is required to ensure regulatory alignment, operational fluidity, and the establishment of a reinforced framework for enhanced profitability. Once the charge is cleared, it will authorize immediate progression into the subsequent trading stream, which has been strategically structured to broaden your market exposure and significantly amplify your profit potential. We kindly request that you arrange for the settlement of the above amount and confirm completion at your earliest convenience, so we may proceed without unnecessary delay.
